Intergroup to Intergroup Committee Report

July, 2019

On April 13, 2019 the Intergroup to Intergroup committee presented the second OA Intergroup Recovery: A Program of Attraction workshop. The workshop took place at Elmhurst Hospital in Chicago, IL. There were approximately 20 people in attendance and the workshop was well received.

Prior to the workshop in Chicago, members of the committee revised the workshop to allow more time for intergroup sharing. The changes enhanced the workshop and allowed for valuable sharing time during the workshop at Elmhurst.

Future Plans for the Committee

I have been in contact with members from the Central Ohio intergroup. They have expressed an interest in hosting the third Intergroup Recovery workshop possible in November. The Central Ohio intergroup will contact the Dayton area intergroup about the possibility of co-hosting the event.

The Central Indiana intergroup is also very interested in hosting the workshop in the near future.

Respectfully Submitted,

Teresa H.
