

## PI/PO Professional Outreach Subcommittee Current Status

9-2021

The committee has been examining and collecting information for professional outreach.

This has included:

Current OA literature for professional outreach

Information from Intergroups on professional outreach programs completed

Lists of professionals who we might outreach to, going beyond traditional healthcare professionals

Our original plan was to develop a presentation or manual for use with Intergroups or for groups to use for outreach to professionals. As we have looked at the work that has been done and many resources there are, we have changed our focus to collecting information FROM Intergroups about successful efforts they have made. This information could then be shared via the Region website.
