

## Intergroup to Intergroup Outreach Subcommittee Report

The Intergroup to Intergroup Outreach Subcommittee will have met three times by the Region 5 Fall Convention.

Our goal is to be supportive of the Intergroup Renewal Workshop provided by the R5 Board. Our objectives are to:

1. Provide sample materials that would be informative for new intergroup board members and meeting/group representatives.
  - a. i.e. What an Intergroup is and does. The responsibilities of officers and group/meeting representatives.
2. To work with the R5 Board members to train others to assist with Intergroup Renewal Workshops.

In more detail about the materials in our first objective:

The committee is pulling together materials for a binder that would be available for intergroups to use. This binder would be available to all intergroups. It would allow a member to know and understand how to give service in an encouraging and non-threatening way. It will emphasize how important intergroups are to our recovery as well as descriptions of the opportunities to serve on the intergroup level.

In more detail about our second objective, some of the members of the committee have also offered to be trained by our Region5 Board members to assist in putting on Intergroup Renewal Workshops.

In addition, we were requested to call R5 intergroups to encourage all their members to attend our virtual R5 Fall Assembly.

Carol D., Chairperson
